

# HURRICANE PLAN

- ★ In the event of a hurricane, we will notify you when the school is closing.
- ★ We contact local television stations to let them know that we are closing as well so that they can let the community know.
- ★ Once the hurricane passes, please call the school to determine when the school will reopen. If you do not get the school phone machine, the electricity is not working and we obviously cannot open the school. If the phone machine is working, you can assume the school has power
  - *however*-
    - Your teacher will call you to let you know that the school is up and running and when we are reopening.
- ★ In the event that the school is closed due to damages, we will not be able to make up those days as our calendar has very little flexibility due to our observance of the Jewish holidays as well as legal holidays. Thank you for your understanding in this matter!
