Torah time (Judaics)	Shalom Sesame (Growing Plants) Look at pictures of Israeli Farmers/Gardner's Israeli plants	Jewish culture Social and emotional Language skills
Storytime	Pete the Cat Old MacDonald Had a Farm The Rusty Trusty Tractor The Carrot Seed The Tiny Seed	Listening comprehension Early Literacy

Home Activity: Bean in Bag

Here's What You'll Need:

Beans(any type) Plastic Sandwich Bag Paper Towel

All you have to do is wet the paper towel and insert it into the sandwich bag. Then place the beans on top of the paper towel before sealing the top of the bag. Just leave it to sit there for a couple of days. It should take a maximum of 5 days before you start to see the beans sprouting. You can then transplant them to your garden and watch them grow. □
